Method 8: Get Apple Music via Verizon — Legacy Benefits or $13/mo Family Perk

Verizon currently provides different Apple Music benefits depending on your plan. Enrollment in the legacy 6-month Apple Music promotion has closed, but customers who activated an included benefit before enrollment ended may still have access. Customers with eligible current plans can add the Apple Music Family perk for $13 per month.

Scenario A: Legacy Verizon Plans [Closed to New Enrollment]

Verizon previously offered 6 months of Apple Music free or included Apple Music at no additional cost with selected legacy unlimited plans. According to Verizon's official Apple Music promotion FAQ, these legacy promotions are no longer available to add to an account.

Legacy 6-Month Trial: Plans including 5G Start, 5G Do More, and 5G Play More previously qualified for 6 months of Apple Music. New enrollment is no longer available.

Included with Selected Legacy Plans: Customers who activated Apple Music through an eligible plan such as 5G Get More before enrollment closed may continue receiving Apple Music at no additional cost for as long as they keep the qualifying plan.
